Missouri Weekly Hay Summary 03/14/19

Weather finally is starting to feel more like spring this week. Thunderstorms and heavy rains resulted in some flooding in low areas and near streams or rivers. Reports of spring peepers are a sure promise things will soon start turning green. Although the origin is unknown, there was undoubtedly more trucks seen on roadways this week across the state. Although grass is coming, there are still some feeding days left and it seems as if a few producers are letting go of inventory to help others and cash in on current prices. Hay supplies are light, demand is moderate and hay prices are steady. The Missouri Department of Agriculture has a hay directory available for both buyers and sellers. To be listed, or to view the directory visit <http://mda.mo.gov/abd/haydirectory/> for listings of hay <http://agebb.missouri.edu/haylst/> (All prices f.o.b. and per ton unless specified and on most recent reported sales price listed as round bales based generally on 5x6 bales with weights of approximately 1200-1500 lbs).

Supreme quality Alfalfa (RFV <185) 200.00-250.00
 small squares 7.00-10.00 per bale
